

# Bee Gees, Bad Bad Dreams

I've got a notion to live in an ocean of bad bad dreams  
No consolation to mixed conversation in bad bad dreams  
You know we're all alike  
We can shout and scream and yell all night  
It's just a bad bad dream

Feel like I'm crying, there's no use denying it's all been done  
For your information we still own the nation, the war's been won  
You know you're far too late  
Your only hangup is you hesitate  
It's just a bad bad dream

Bad bad bad dream  
Bad bad bad dream  
Bad bad bad dream  
Bad bad bad dream

I'm getting it to you so you get it through you and make your choice  
People start playing and back what you're saying in just one voice  
You know you're all insane, it doesn't matter how you play the game  
It's just a bad bad dream

Bad bad bad dream  
Bad bad bad dream  
Bad bad bad dream  
Bad bad bad dream  
Bad bad bad dream
