

# Bee Gees, Butterfly

Green fields where we used to wander  
Purple valleys , near my home  
We would play there , beneath the sky  
And then I kissed you , butterfly

Young girl , you came restless  
And you left me here to cry  
My big teardrops, in red pastures  
For I loved you , butterfly

Butterfly , yeah  
I dream about you , lonely without you , butterfly  
Butterfly , yeah  
Each night I'm sleeping, your face goes creeping, butterfly

Green fields where we used to wander  
Purple valleys, near my home  
We would play there beneath the sky  
And I kissed you , butterfly

Butterfly, yeah  
I dream bout you , lonely without you , butterfly  
Butterfly , yeah  
Each night I'm sleeping, your face goes creeping, butterfly
