

Bee Gees, Butterfly

Green fields where we used to wander
Purple valleys , near my home
We would play there , beneath the sky
And then I kissed you , butterfly

Young girl , you came restless
And you left me here to cry
My big teardrops, in red pastures
For I loved you , butterfly

Butterfly , yeah
I dream about you , lonely without you , butterfly
Butterfly , yeah
Each night I'm sleeping, your face goes creeping, butterfly

Green fields where we used to wander
Purple valleys, near my home
We would play there beneath the sky
And I kissed you , butterfly

Butterfly, yeah
I dream bout you , lonely without you , butterfly
Butterfly , yeah
Each night I'm sleeping, your face goes creeping, butterfly
