

Bee Gees, Deendance

What you doin' on your back
What you doin' on your back

My baby moves at midnight
goes right on to the dawn.
My woman takes me higher
my woman keeps me warm.

What you doin' on your back
What you doin' on your back
You should be dancin'
yea
you should be dancin'
yea

She's juicy and she's troubl
She gets it on me good
My woman gives the power
go right down to my blood

What you doin' on your back...

My baby moves at midnight
goes right on to the dawn
My woman takes me higher
my woman keeps me warm.
