Bee Gees, I Have Decided to Join the Airforce

Mother, I'm going to join the Air Force today I don't care what the neighbors may say But I'm going to join the Air Force today Mother, I don't care what my father might think Perhaps it's going to drive him to drink But I don't care what my father might think Don't ask me why, it's my mind and it's right Don't ask me why, it's my mind It's better, it's better than being alone Alone on the ground, now I find Mother, I've got to join the Air Force, you see I've seen my friends and they all agree That's it's better than joining the Army or going to sea Mother, I've got to join the Air Force, you see I've seen my friends and they all agree That's it's better then joining the Army or going to sea Mother Mother Mother
