

Bee Gees, I Just Don't Like To Be Alone

When I see you out of sight
I don't care to feel all right
I just don't like to be alone
When you walk away from me
Leave this man in misery
I just don't like to be alone

And when I'm holding you
I find the things you do
When I'm with you
I'm not blue , I'm not blue

When I see you out of sight

I don't care to feel all right
I just don't like to be alone
And when I'm holding you
I find the things you do
When I'm with you
I'm not blue , I'm not blue

When I see you out of sight
I don't care to feel all right
I just don't like to be alone
I just don't like to be alone
I just don't like to be alone
