

Bee Gees, I Will Always Love You

I saw you tonight
In the room where love had started once before
And we opened up the skies
With your loving eyes
You take me back where you belong in my heart

One love frozen in time
Never be a bad love
Yours and mine
But I still remain I will never change

I will always love you
I will always take your part
And all the years of losing you
And then being close to you again
The very chance that I could take
Your hand in mine
You are inside of me
One more time
Don't you remember me
And the days that lie ahead
May all go wrong

But tonight my love
There's no question in my mind where we should be
It's clear that you're alone and I'm alone
And all the fools have gone
You open up so tears can fall from your eyes
True love can never die
We can make it one day - if we try
Be there - sunshine or rain
I will never change
I will always love you
I will always take your part
And all the years of losing you and then
Making love to you again
The very chance that I could take
Your hand in mine
I got a memory
For all time
Don't you remember me
Now my dream will come true
If you love me

I will always love you
I will always take your part
And all the years of losing you and then
Making love to you again
The very chance that I could take
Your hand in mine
