Bee Gees, Lay It On Me

Don't you drink with me 'cos you know that I'm a loser. And I'm proud of that fact as you can plainly see. Never did what people said. I should've. I'm just a low down critter who never did any good. I'm just a low down critter who never did any good.

I spend my life working up a sweat to be a bad boy. Getting girls into trouble ev'ry day. Going from town to town . Now I tell you I've been around. I'm just a low down critter who never did any good. I'm just a low down critter who never did any good.

Lay it on me .. yeah...

Don't you drink with me 'cos I tell you that I'm a loser. And I'm proud of that fact as you can plainly see. Going from town to town. Now I tell you I 've been around. I'm just a low down critter who never did any good. I'm just a low down critter who never did any good .
