

Bee Gees, Living with you

You been teaching me a lesson that I never learned
You never make it through a lifetime without being burned
Everything I ever thought you were - you turned out to be
Since you gave your love to me
When I met you on a Monday
My life has stood still
I belong to every moment that your love can fill
Let me be the only heart you mend
Turn out the light and take it right to the end
Living with you
In the madness of my mind
In a world I could not find
But you knew what to do
Living with you
There's a full moon on the rise
There's a fire in your eyes
And I was born to be
Loving you under my skin
You're everything to me
I could not love you more
And you know that you are mine
And that's what I'm living for
There will never be a question of somebody new
I could make it through a lifetime with someone like you
Let me be the only heart you mend
Turn out the light and take it right to the end
Living with you
In the madness of my mind
In a world I could not find
But you knew what to do
Living with you
There's a full moon on the rise
There's a fire in your eyes
And I was born to be living with you
