

Bee Gees, Nature Of The Beast

Verse 1

Like a razor
I've been livin' on the edge
Am I losing control
I've been pushed above
The point of no return
Under pressure I fell

Release 1

My will is bending
Like steel
This talk of danger
Is real

Chorus

It's not my nature
To be sweet anymore
It's just the nature
Of the beast at your door
It's human nature
In the animal world

(it's human nature)
(it's human nature)

Verse 2

I am not responsible
For things I can't explain
You know the night is like a zoo
In the jungle
With your back against the wall
Your love is precious to you

Release 2

The fever burnin' through me
You free the spirit in me

Chorus

Break

Chorus (repeat 3 times)
