

Bee Gees, Run Wild

I wandered into your wonderland with eyes open wide
You turn me into your yesterday
But you will remain inside of me
Like I care for you
Oh, I care for you

Run wild , out on the edge of time , child
Carry your dreams away , love
No one can hold you now
For you are an island

I may be broken but understand my love will get by
There will be others along the way , my love
They will try to care for me
Like I care for you
Oh , I care for you

Run wild , out on the edge of time , child
Carry your dreams away , love
No one can hold you now
For you are an island

Run wild , out on the edge of time , child
Carry your dreams away , love
No one can hold you now
For you are an island

Run wild , out on the edge of time , child
Carry your dreams away , love
No one can hold you now
For you are an island (fade)
