Bee Gees, Run Wild

I wandered into your wonderland with eyes open wide You turn me into your yesterday But you will remain inside of me Like I care for you Oh, I care for you

Run wild , out on the edge of time , child Carry your dreams away , love No one can hold you now For you are an island

I may be broken but understand my love will get by There will be others along the way , my love They will try to care for me Like I care for you Oh , I care for you

Run wild , out on the edge of time , child Carry your dreams away , love No one can hold you now For you are an island

Run wild , out on the edge of time , child Carry your dreams away , love No one can hold you now For you are an island

Run wild , out on the edge of time , child Carry your dreams away , love No one can hold you now For you are an island (fade)
