

Bee Gees, Save Me , Save Me

I can't stand the mornin' light
Now you're gone , there ain't no one to make it right
The way you do
Ev'ry day I fall more in love with you
Knowing that you let this heart of mine
Be captured at the start
And I know you know that I can't get through
Am I living a lie when I reach for you

You gotta save me , save me
Only you can keep me warm above the storm
You gotta save me , save me
You know there ain't a world enough without your love

Gotta lay my head , rest my heart
Dream my dreams, but they're all of you
And they fall apart the way I do
Ev'ry night I fall more in love with you
Praying for the day you'll turn around
And make your love all mine
When a man goes down for the very last time
You can throw him a line
You can keep him alive

Ooo, baby , save me , save me
Only you can keep me warm above the storm
Why don't you save me , save me
You know there ain't a world enough without your love

When do I get to be near you for all time
When do I get to be near you
When a man goes down for the very last time
You can throw him a line
You can keep him alive , ooo

Save me , save me
Only you can keep me warm above the storm
Why don't you save me , save me
You know there ain't a world enough without your love (love)
You gotta

Save me , save me
Only you can keep me warm above the storm
Why don't you save me , save me
Only you can keep me warm
Ooo, baby

Repeat last verse and fade out
