Bee Gees, Secret Love

When do I cry
This breakin' heart
Just hurts me more
When we're apart
And there are two of us
With our secret love

Sleep pretty baby while you wait so long Livin' with a love that's not just make believe Lonely nights, I see your candle glow And in my mind, I trace Together we can take away The time and the space

(CHORUS)

Baby when you got a secret love
Every little touch is not enough
Every little moment we're apart is pain to me
Maybe we can find some hideaway
Everybody knows but who can say
Secretly you know I'd follow
Anywhere to make you happy

Anyway you want me I'll be standing by I don't wanna lose the one I hunger for Naked eyes, they watch us everywhere Nowhere to run, I cry Everything to lose and no alibi

(CHORUS)

Baby when you got a secret love Nothin' you can do but rise above Secretly you know I'd follow Anywhere to make you happy

When do I cry
This breakin' heart
Just hurts me more
When we're apart
And there are two of us
With our secret love (together we can take away the time and the space)

REPEAT CHORUS (FADE)
