

Bee Gees, Spread Your Wings

Verse 1

Angel eyes
High above suspicion
What you do
Nobody questions why
Set your watch
Another situation
And you believe
She'll run away with you

Release 1

So wonderful for you
That makes you happy
How wonderful to see
That you can get to dream
So wonderful a dream
The pressure on you
To keep her in your heart
As mine is dying

Chorus

Do something for your love
If anybody wants you
Something for your love
Anybody wants you
Something for your love
Anybody wants you

Something for your love
Anybody wants you

Verse 2

Body moves
Changes her position
Into view
Let the people stare
She don't care
She got no competition
She plays that game
That only she can win

Release 2

So wonderful for you
That makes it easy
Both fighting for your heart
As mine is dying

Chorus

Bridge

All of me
With all of you
You just got to do

Chorus
