

Bee Gees, Take Hold Of That Star

Take hold of that star I give to you
and tell me that you love me
just as I love you.

Take hold of that star and put it in your locket
and tell me that you love me
just as I love you.

I'd give you the moon or the sun
or the starlights with a love so true,
and if it rains, I'll give you a rainbow too.

Take hold of that star and put it in your locket
and tell me that you love me
just as I love you.

I'd give you the moon or the sun
or the starlights with a love so true.
and if it rains, I'll give you a rainbow too.

Take hold of that star and put it in your locket
and tell me that you love me
just as I love you.
La la la..... as I love you.
