Talk To Me

Come into my parlour
Sit around and talk to me
Just settle back , relax ,have a cup of tea
Loosen your tie , take off your shoes
Go on and get rid of those worryin' blues
And just talk ,talk to me

Come into my parlour
Settle down and wear a smile
Just take it easy ,livin' on the while
Light a cigarette ,make yourself at home
If it rings , we won't answer the phone
And just talk , talk to me

We don't care if the weather outside is stormy
We don't care if the hail comes tumbling down
Inside the house it's cozy and it's warmy
It's nice to just hang around

Come into my parlour
Sit around and talk to me
Just settle back, relax, have a cup of tea
Loosen your tie , take off your shoes
Go on and get rid of those worryin' blues
And just talk , talk to me
Just talk to me
