Talk To Me
Come into my parlour
Sit around and talk to me
Just settle back, relax, have a cup of tea
Loosen your tie, take off your shoes
Go on and get rid of those worryin' blues
And just talk, talk to me

Come into my parlour Settle down and wear a smile Just take it easy ,livin' on the while Light a cigarette ,make yourself at home If it rings , we won't answer the phone And just talk , talk to me

We don't care if the weather outside is stormy We don't care if the hail comes tumbling down Inside the house it's cozy and it's warmy It's nice to just hang around

Come into my parlour
Sit around and talk to me
Just settle back, relax, have a cup of tea
Loosen your tie, take off your shoes
Go on and get rid of those worryin' blues
And just talk, talk to me
Just talk to me
