(Underneath The) Starlight Of Love

Hey, what is that , the moon I see

It belongs to you and me

We're gonna kiss so tenderly

Underneath the starlight of love , yeah

Underneath the starlight of love

Come on along and take my hand

And pretty soon you'll understand

I'm gonna be your lovin' man

Underneath the starlight of love , yeah

Underneath the starlight of love

We will sit together (together)

The moon and you and I (together)

We will sit , side by side

Watchin' little starlights flickin' by

Is that the moon I see

It belongs to you and me

We're gonna kiss so tenderly

Underneath the starlight of love , yeah

Underneath the starlight of love

We will sit together (together)

The moon and you and I (together)

We will sit , side by side

Watchin' little starlights flickin' by

Is that the moon I see

It belongs to you and me

We're gonna kiss so tenderly

Underneath the starlight of love , yeah

Underneath the starlight of love , yeah
