(Underneath The) Starlight Of Love
Hey, what is that , the moon I see
It belongs to you and me
We're gonna kiss so tenderly
Underneath the starlight of love , yeah
Underneath the starlight of love

Come on along and take my hand And pretty soon you'll understand I'm gonna be your lovin' man Underneath the starlight of love , yeah Underneath the starlight of love

We will sit together (together)
The moon and you and I (together)
We will sit, side by side
Watchin' little starlights flickin' by

Is that the moon I see
It belongs to you and me
We're gonna kiss so tenderly
Underneath the starlight of love, yeah
Underneath the starlight of love

We will sit together (together)
The moon and you and I (together)
We will sit, side by side
Watchin' little starlights flickin' by

Is that the moon I see
It belongs to you and me
We're gonna kiss so tenderly
Underneath the starlight of love , yeah
Underneath the starlight of love
