

# Beeshop, You Taste Like Cookies

She's having lunch  
I'm waking up  
There's nothing like this girl  
In this small suburban city  
The way she looks  
So good it spooks every single man around  
She just can't be bound  
Why do you ask me to leave you  
When all i want is please you  
I'd give you all of my love  
Cause when we're talking like this  
Sometimes i wonder if you want me too  
And when you stare me like this  
I wish i could do anything for you  
When you love me like this  
I wanna tell the world I love, and I'd do  
If you'd tell me that you are in love with me too  
Why do you ask me to leave you  
When all i want is please you  
I'd give you all of my love  
Cause when we're talking like this  
Sometimes i wonder if you want me too  
And when you stare me like this  
I wish i could do anything for you  
When you love me like this  
I wanna tell the world I love, and I'd do  
If you'd tell me that you are in love with me too  
If you'd tell me that you are in love with me too  
If you'd tell me that you are in love with me too
