

Before God, Under The Blood Banner

Legions attack, shoulder to shoulder
Striking the alien hordes
In battle formation, defending thy nation
With fury we wage, lighting wars!

To our banner, we have sworn
Duty until our death
To vanquish or die, we fight fight on
Till our very last breath
Strength, honor, loyalty

Under the blood banner
Courage, faith, destiny
Under the blood banner
Pride, pain, sacrifice
Under the blood banner
Freedom the ultimate price
Under the blood banner

Years of betrayal, lies and deceit
Of a nation dragged through mud
After so much struggle, to gain freedom
It's our history written in blood
Cowardice and treason, run rampant
But we choose to defy
No guilt here, no shame either
A heritage can not be denied

Strength, honor, loyalty
Under the blood banner
Courage, faith, destiny
Under the blood banner
Pride, pain, sacrifice
Under the blood banner
Freedom the ultimate price
Under the blood banner

Legions attack, for the sacred cause
Out to enforce, our eternal laws
Ready for battle, and willing to die
To smash tyranny, we will defy
So into war, with sword and shield
Onward we ride into battlefields
For those who've died trying to defend

Ride, ride, ride Teutonic knights
Ride, ride, into the endless night
Ride, ride, ride Teutonic knights
Ride, ride, under the banner we fight
