

# BeFour, Zero Gravity

I start the engine of my rocket  
turn the key to lift it off  
I've got a mojo in my pocket  
and dream of being high above  
I feel the power of my spaceship  
than I leave the world behind  
It's getting darker, but I am fearless  
cause loveliness is all I find  
only million stars and me  
Sparkling lights is all I see  
I'm so happy cause I'm free  
Here in zero gravity  
only million stars and me  
Sparkling lights is all I see  
I'm so happy cause I'm free  
Zero gravity!  
Dum...Di-Dum-Dum-Dum...  
I'm floating weightless through the darkness  
My spacesuit keeps me safe and warm  
The ship is flashing in the moonlight  
I feel like here is where I belong  
The earth below me seems so fragile  
so sensitive I have no clue  
I wanna hold it and protect it  
I never felt so deeply moved
