

# Behemoth, 23 (The Youth Manifesto)

23 year ov long journey  
among the living dead  
on nonsense nourish'd I  
my naked soul and where am i?  
in the palace ov underworld  
without enemy nor friend  
pay I for fathers legacy  
half-man, half-beast  
DEMIGOD

and my hunger was never fed  
my desires never fulfilled  
but my wish to become  
the one with universe  
has always entangled me  
and forsaken I shall not be  
though my flesh is torn apart  
though my heart seems dead and cold  
my will transgress  
the spirit lives on!
