

Behemoth, Conquer All

(music and lyrics by Nergal)

Mightiest Self!
cast out ov Thy Elysium
with blood ov nazarene
I write the history ov man
2000 years is nothing
though it has been enough
come forth victorious
muting the foul angelic choirs!

none ov thy empty gods, shall ever stand above me
none ov thy weak brothers, shalt ever share my blood
my awareness, catalyst, ov godhate I have spawned
in sinister ecstasy eternally I decompose

race ov man!
the errors ov a wise man make Thy rules
ye shall see
rather than the perfection ov the fool
the most divine!
I am many! among so very few
beyond redemption, beyond the weak
thus I beheld the truth!

none ov thy empty gods, shall ever stand above me
none ov thy weak brothers, shalt ever share my blood
my awareness, catalyst, ov godhate I have spawned
in sinister ecstasy eternally I'm decomposed

I am (ever shining) Sirius son
I am the infinite space
I am the most conquering One
