

Behemoth, Evoe (In Absentia Dei)

Harken te laments ov tge martyrs
The very music ov they name
Thou art. The begining and the end
Alpha and omega
The creation and remains
Asomateous one!

Thou art. The prologue ov the sun
Thou were there are day was born
Mephistopheles!

Thou shine unending aeons hence
Redeemed malevolence
Thou art. The asymetry to the covenant divine
The magnet bonding black whit white
Thou art. Unanswereed „what” and „why”
Ignited passions and the longing tn the prophet’s eye
Asomateous ine!

Thou art. The prologue ov the sun
Thou were there are day was born
Mephistopheles!

Thou shine unending aeons hence
Redeemed malevolence
I call upon Thee
Hermits obv the Earth
Pater Ecstaticus – come forth!
Pater Profundus – come forth!
Pater Seraphicus – come forth!
Come to reclaim the throne!
I sing my song to Thee
O planetary soul
In rapture i shall burn
To workship the unknown
