

Behemoth, Penetration

[originally performed by The Nefilim]

"Seeing things in my whole life, images exploding. You have been chosen."

"We are free."

Endemion - magical son

Nothing here is real

Lasts forever

Shining like gods

New body, new blood

The fire that I feel

Armageddon

Vision

Penetrating me

Penetrating you

Penetrating deep

Look out

"What's happening is real.

You can't stop them.

What do you think, we just go on forever?"

Ziarahs are all burning ahead

Illuminating ways

I've not dreamed before

Eternals are inviting me in

I see images of you burn forever

Can't contain

Penetrating deep - generating me

Penetrating you - let go

We must go back now

Make my entrance one way

And I can't look in

And I can't look back

We cannot stop, no

Black out

Listen

"Repeat: we have confirmed angel touchdown. The place is completely ablaze of fire. It's

Penetrating deep

Penetrating me

Penetrating you

Again
