

Behexen, Let The Horror And Chaos Come

Worl of Plagues
Best of disgusting filth
To be taken to ruin and damnation
All created must be raped

Into the night me whisper a prayer
A black spell full of hate
full of horror and chaos
World will perish in flames

Piece up piece rape your children
and fathers till their families
We stand behind you in the shadow of our Lord
breathing pour agony

Let the horror and choas come
let it flow freely through me,
like a black tapid stream
full of pour immense batred
