

Behind The Scenery, Nocturnal Beauty

At nightfall'

The rosy scenery changes

Into a frozen fantasy

Where the fragments of moonlight

Overshadowed by the night

At dusk you fall asleep and awake

In a distant galaxy of dreams

A garden of twilight - bitter delight

A long forgotten path of dreams

Leads through the mountains

Of grow stiff fears

A garden of bitter delight

The nocturnal beauty of a dying land

Casts a spell on you if the firmament obscures

The nocturnal beauty of a dreamland

Takes you into the nightshade

Where you can see your fate

The withering flowers crying your name

On the silent meadows of dreadful dreams

A garden of twilight - bitter delight

At nightfall'the rosy scenery

Changes into a frozen fantasy

The autumnal forests of shadows hides

In a different cosmos of nightmares

The nocturnal beauty
