

Beholder, Blood And Pain

In a time of blood and pain there was a noble kingdom
when everyone honoured the faith
With their mighty sacred steel the armies on the field
ready to sacrifice their lives

They had no fear of the mighty northern enemies
Riding beyond lakes and forest, singin' hymns of war

[CHORUS:]

Fight immortal army
Follow the way of your lord you are killing to survive
Till the end, defend the crown of your land

You are the chosen ones, the ones who'll fight for glory
as long as God will give you strenght
And when the sun comes down, the moon will see you standing proud
your swords are brighter than the stars

[BRIDGE:]

Take your shield and seize your sword to fight before the walls
Run through blades and kill who wants to make your people fall

[CHORUS]

[SOLOS - Markus Mayer, Matt Treasure, Pete Ryan (2 times)]

[BRIDGE - CHORUS]
