

Belinda Carlisle, I Never Wanted A Rich Man

I never wanted a rich man
Just someone with soul
It was on the day I met you
I vowed to never let you go

I never knew much about romance
Always used my lucky charms
I learned it all in just one lesson
When you first held me in your arms

Open up your heart
Let me inside
If you listen to your intuition
We'll have a chance tonight

Keep me in your heart
And hold on tight
If you read into my intuition
We'll find a way tonight

I put away all my heroes
And all the lovers I have known
Even though I've had my share
I've spent too many nights alone

Don't need to look for fame or fortune
I have found my paradise
you've got the whole world in your hands
And a fortune in your eyes
