

# Belinda Carlisle, In Too Deep

In Too Deep  
I was high and dry  
Don't ask me why  
We took the wrong turn that day  
Out on that long lonely highway.  
The river was pounding below  
And how we crashed, I'll never know  
But suddenly I can't swim  
So this is drowning...

Suddenly I'm in too deep  
to ever get out  
I gave you my heart and my soul to keep  
Don't give me your doubts  
I'm over my head  
and it's scaring me so...

I'm in too deep  
I'm in too deep

Thanks for the crash course  
That ride upon your noble horse  
Well we jumped the fence that day  
and rode so far away...  
Will I forever roam?  
I only want to come home  
So won't you throw me a line?  
I think it's really time...

Suddenly I'm in too deep  
to ever get out  
I gave you my heart and soul to keep  
Don't give me your doubts  
I'm over my head  
and it's scaring me so...

So have a little faith baby in where we're going to  
Don't ask me where  
You know I just can't tell you  
All I know is I'm swept away  
taken by this undertow  
Ooh, waves are crashing in  
Baby, baby don't let me go, 'cos...

I'm in too deep  
I'm in too deep  
I'm in too deep  
I'm in too deep
