

# Belinda Carlisle, One With You

Come wash my body  
Wash away my sins  
And all the ways we hurt each other  
Oh how we hurt ourselves  
I wanna know you now  
Come out of isolation  
I wanna show myself  
Of God, I wanna cry out loud

I wanna be one with you  
Get down to the real emotion  
I wanna let love break through  
We can kiss the truth  
One with you  
I wanna hold you deep inside my heart  
Feel what love can do  
To know that I am one with you

Come lie down in my garden  
Leave your mark on me  
I know I can't be scared forever  
Come on and humble me, humble me

I'm so tired of living in my head  
The precious comfort of my own bed  
I've glorified my spiritual side  
Now take me down to the ground where I can't hide  
I know I can love myself  
I wanna give to someone else  
I wanna know you  
Touch you  
Move you  
Do you  
Feel you live and breathe  
Deep inside of me
