

Bell Book and Candle, Read my sign

I wonder if I'll stay alone
Time with you is far and gone
I wonder if you got someone
And I wish that it was me
Sudden impressions,
See you come, round the corner
Heart beatin' fast
As if to steam up
And warn you
I show my love you cannot release
I never wanted to undress myself
I hate these lonely moments without you
Hey - come and read my sign
I'm going higher with you
Hey - come and read my sign
I'm going higher with you
I wonder why I'm still alone
Seems to me our love is done
I wonder if you're havin' fun
And I wish it was with me
Sudden effections
Makes me freeze as I see you
So glad to see that there is
Nobody near you
Can't hide my love
I wanna retrieve
I never wanted to express myself
I hate these lonely moments without you
Hey - come and read my sign
I'm going higher with you
