

# Bell Book and Candle, See ya

Come into my heart  
can you feel my desperation deep inside  
hehehe  
come into my heart  
can you feel my desperation deep inside  
come into my soul  
can you see me - here I'm far away from you  
see ya - be sensible and let me go  
see ya - you'll stay my soulmate although  
you should say good bye  
for now say good bye  
you know these rainy days of our life  
you can make it if you try  
you know I will be right by your side  
one day we will meet in another life  
come into my heart  
I'm surchin' you so desperatly forever more  
come into my soul  
so must I put up with this cruel infinity  
see ya - be sensible and let me go  
see ya - you'll stay my soulmate although  
you should say good bye  
for now say good bye.  
you know these rainy days of our life  
you can make it if you try  
you know I will be right by your side  
one day we will meet in another life
