

Bell Book and Candle, Watching a wonder

You - it's you I'm searching for
time has come
to built the base for more
we -
will never be the same
get some peace
I guess we share the blame
remember the day
we went our own way
come on; right here we're
watching a wonder
remember the day
it felt like a farewell
look up; right now we're
watching a wonder
now -
the years were passing by
but I know
again we risk the flight
I -
did not expect you to
cover me
but at the end you'll do
remember the day ...
