

Bell Book & Candle, Read My Sign

I wonder if I'll stay alone
time with you is far and gone
I wonder if you got someone
and I wish that it was me

sudden impressions, see you come round the corner
heart beatin' fast as if to steam up and warn you
I show my love, you cannot release
I never wanted to undress myself
I hate these lonely moments without you

hey - come and read my sign, I'm going higher with you
hey - come and read my sign; I'm going higher with you

I wonder why I'm still alone
seems to me, our love is done
I wonder if your havin' fun
and I wish it was with me

sudden affection makes me freeze as I see you
so glad to see, that there is nobody near you
can't hide my love, I wanna retrieve
I never wanted to express myself
I hate these lonely moments without you

hey - come and read my sign, I'm going higher with you
hey - come and read my sign, I'm going higher with you
hey - come and read my sign, I'm going higher with you
hey - come and read my sign, I'm going higher with you

I wonder why I'm still alone
seems to me, our love is done
I wonder if your havin' fun
and I wish it was with me
