

Bell Book & Candle, Realize

You are the one to realize
You are the one to realize
You are the one to realize
You are the one to realize
And it's gettin' dangerous, to see my love away
And it's gettin' dangerous, to wait another day
You are the one to realize
You are the one to realize
You are the one to realize
You are the one to realize
And it's gettin' dangerous, for me to hear you say
And it's gettin' dangerous, to see you go astray
And it's gettin' dangerous, to keep it all away
And it's gettin' dangerous, to leave and not to stay
You are the one to realize
You are the one to realize
You are the one to realize
You are the one to realize
Hi, get your heart out, come and let me see oh
Hi, long time runnin', to believe in me
You are...
You are the one to realize
You are the one to realize
You are the one to realize
You are the one to realize
