

Bella Poarch, Crush - feat. Lauv

I never wanna get you alone
I'm scared of even standing too close, babe
Get nervous when you light up my phone
But I like it
Yeah I like it

In the car
On the beach
Looking at you when you look back at me
Feel my heart
Skip a beat
Think you know what I mean

But I don't wanna say too much
I don't wanna fuck this up
Why would we fall in love when it feels so good to Touch
Feel the way my cheeks go blush
Why would we fall in love when it feels so good to Crush
Crush
Crush
Cause it feels so good, ooh

Love Island is my favorite show
If we were on I'd give you a rose, babe
Blow kisses, turn around and go home
Cause I like it
Yeah I like it

In the car
On the beach
Looking at you when you look back at me
Feel my heart
Skip a beat
Think you know what I mean

But I don't wanna say too much
I don't wanna fuck this up
Why would we fall in love when it feels so good to Touch
Feel the way my cheeks go blush
Why would we fall in love when it feels so good to Crush
Crush
Crush
Cause it feels so good, ooh

Tell me you're nervous when we say goodnight
Am I on your mind? Like you're on my mind
Tell me you're nervous looking in my eyes
Am I on your mind? Like you're on my mind

But I don't wanna say too much
I don't wanna fuck this up
Why would we fall in love when it feels so good to Touch
Feel the way my cheeks go blush
Why would we fall in love when it feels so good to Crush
Crush
Crush
Cause it feels so good
