

BELLAMY BROTHERS, Forget About Me

Every time I look into your eyes
I want to say that, I apologize
I can't change, I thought you knew
I'm not the one to stay with you
You don't need a crazy love like mine
That comes and goes from time to time
So, save your heart and save your dreams
Forget about me
A girl like you deserves the best
Believe me babe, it's in your interest
Forget about me, forget about me
Forget about the way we used to touch
Forget about the times we cared so much
Forget about the way our days would end
And all the nights that we would share again
You're old enough to realize
You got to keep your love alive
When you hear the music let it play
Don't let your feelings hide away
Let your love run wild and free
Throw away my memory
You can erase it, you can replace it
Forget about me
A girl like you deserves the best
Believe me babe, it's in your interest
Forget about me, forget about me
Forget about the way we used to touch
Forget about the times we cared so much
Forget about the way our days would end
And all the nights that we would share again
Forget about me
Ooh, forget about me
