

# Belle And Sebastian, Desperation Made A Fool Of Me

I'm sick, I've felt this way for sometime now  
I'm fed up with the daily grind  
I'm trying to find relief  
If you feel this way then clap your hands  
Ever thought this was a backwards land  
What is keeping people mean?  
A bad scene

Now that I've got my motives straight  
And I am thinking clearly  
I'll sneak up to your window with my senses open wide

I'm tired, on my shoulders weighing heavily  
Is the full responsibility of your troubles and your charms  
Your betrayal goes around with me  
Like the sword in some old tragedy  
It is sticking in my back, people laugh

Now that I've got my motives straight  
And I am thinking clearly  
I'll sneak up to your window with my senses open wide

I never really thought it would be like this  
I know its kind of hard but I'm glad that it is  
Oh I'm glad, yeah I'm glad  
Now that I've got my motives straight

And I am thinking clearly I'll sneak up to your window  
With my sense open wide  
Never really thought it would be like this  
I know its kind of hard but I'm glad that it is  
Oh I'm glad...
