

# Belle & Sebastian, Don't Leave The Light On Baby

It's been a bloody stupid day  
My baby called me up to say  
Don't call me love, don't call me  
It's not all she said

I truly love her but i know  
I'm bad for her, i'm bad and so  
At least she may forgive me for my honesty

My friend came back from being abroad  
He was rich and i was overawed  
His ship came in  
I'm standing on the harbour wall

Another friend, the one i love  
Turns to me "have you seen enough?"  
"let's hang about  
There's nothing like a sunset"

It's been a bloody stupid day  
Don't leave the light on baby  
My baby called me up to say  
Don't leave the light on baby  
I'll see you sometime maybe  
Don't leave the light on baby  
It finally dawned on me tonight  
Best to go down without a fight  
I know you will forgive me for my honesty
