

Bellefire, Any Day Now

Shining light behind the clouds
A distant voice that echoes loud
A hope inside that never fades away

A grain of sand fills up the beach
A ripple spreads with ?
A bluebird coming home at last to stay

Close your eyes and you will see
You will see
The dreams you hold are meant to be
Meant to be
You only need to feel it believe me

Time is on our side
Lets keep the summers long
Get ready for the ride of your life
Any day now
Any day now

Nothing left to hide
Together we are strong
We can take the world on if we try
Any day now
Any day now

The butterfly can start a storm
The sun goes down to bring the dawn
And people can connect without a sound

There's no need to live in fear
From ? tomorrow always here
And this is how to turn your life around

Changes breathing in the air
Theres so much more that we can share
You only need to feel it believe me

Time is on our side
Lets keep the summers long
Get ready for the ride of your life
Any day now
Any day now

Nothing left to hide
Together we are strong
We can take the world on if we try
Any day now
Any day now

Any day now love will flow
and find you
growing wings to fly

Yeah Yeah yeah... x4
Believe me

Time is on our side
Lets keep the summers long
Get ready for the ride of your life
Any day now
Any day now

Nothing left to hide

Together we are strong
We can take the world on if we try
Any day now
Any day now

Repeat Chorus us fade
