Don't Let Me Down

Thanks to Lela Chisholm for these lyrics.

Catch me now before I fall  
Leave me standing with my pride  
Cause I've been broken many times before  
It really tears you up inside

Could you be the one  
To show me how to love  
Without the pain  
Without the hurt  
And all I'm frightened of

You know my heart, oh I, oh I let you in  
You hear my thoughts, you know, you know everything  
Believed in me, believed in me  
Oh if you ever hurt me I'd be lost  
Don't let me down

Funny how you got so close  
To someone scared of what she feels  
I've been torn apart a thousand times  
It's time I felt for something real

I wanna know  
If you'll stay for sure  
So tell me now  
And make it clear before I'm in too far

Chorus

When I needed to feel safe  
I build a wall around my heart  
I made it high I made it hard to climb  
It couldn't keep us both apart

I wanna know  
If you'll stay for sure  
So tell me now  
Make it clear before I'm in too far

Chorus x 2
