Surrender

Thanks to Lela Chisholm for these lyrics.

When you caught my eye
I could feel inside
Desire
You came up and you smiled
You said you'd stay awhile
I'm on fire
Have I been on your mind?
Will you love me all the time?
While we're together
If you wanna be with me
That's the way it's gotta be
Baby, surrender

I heard when a guy really loves a girl
He'd run around the world chasing her
But what you guys don't realise
Is that we're chasing you in reverse
So if you're wanting me
Baby try a bended knee
Cause...

Chorus

You look just like a dream come true
I'm so glad that I'm with you
Don't act like you know what we should do
Bet i could show you a thing or two
So if your wanting me
Baby nothing comes for free

When you caught my eye
I could feel, feel inside
You came up and you smiled
You said you'd stay, stay awhile
Have i been on your mind?
Will you love me all the time?
If you want to be with me
Baby, surrender...
