

Belleruche, Bought & Sold

I kick myself everyday
For falling in love with you
Looking back I saw so green
I never thought that love could ever be so cruel
Well be that what it may
You know it's not that hard to say
You may be the new Mr Wonder
But you're going to need a friend when you get there
So don't play that stupid game with me honey
Let me find out for myself
That you've got something going on
Something not with somebody else
And don't play that stupid game with me honey
Let me find out for myself
That you've got something going on
Something not with somebody else
I used to care to know what you were thinking
Used to care to know what was on your mind
I used to see you in my future
Somewhere close or close by
I heard it all before
You just want to be free
Well if that's the case don't becoming here
And asking sweet with me
Don't be coming here now
And ??? sweet with me
Don't be coming here now
And ??? sweet with me
So don't play that stupid game with me honey
Let me find out for myself
That you've got something going on
Something not with somebody else
Yeah don't play that stupid game with me honey
Let me find out for myself
That you've got something going on
Something not with somebody else
I used to care to know what you were thinking
Used to care to know what was on your mind
I used to care to know what you were thinking
Used to care to know what was on your mind
So don't play that stupid game with me honey
Let me find out for myself
That you've got something going on
Something not with somebody else
Yeah don't play that stupid game with me honey
Let me find out for myself
That you've got something going on
Something not with somebody else
