

Bellx1, Slowset

So I asked her to dance
She said she wasn't able
And all her friends laughed
She was just trying to be gentle
And so we danced
Round and round in circles
Not of that love song
But our very own circles
Slowset is dead
No more love on the dance floor
Unless you're out of your head
That's all that we went for
So she asked me to dance
I did but I wasn't able
Oh where to put your hands
When there's so much food on the table
Slowset is dead
No more love on the dance floor
Unless you're out of your head
That's all that we went for
What do you say
When she's in your arms
And you're going round in those circles
When both of you know
That you've risen to the occasion
When her friend comes along
And you know that she's been rescued
When you're eternal flame
Has been drowned by her
Purple rain
Slowset is dead
No more love on the dance floor
Unless you're out of your head
That's all that we went for
That's all
