

# Beloved, Allure

Hold close now  
It's your only assurance  
Of controlling the outcome of this ending  
Is it ending or just leaving us  
Tired and waiting?  
You're chasing the reasons  
Revolving in circles of questions  
We've all tried to answer for ourselves  
The answer's already inside us  
Just Listen  
And maybe you'll find an answer  
You don't want to hear  
It's only your diversions that keep it away  
Just open up your eyes to see  
Finally you'll understand to fill this void  
Empty out entirely what's standing now
