

Beloved (US), Allure

Hold close now.

It's your only assurance

Of controlling the outcome of this ending.

Is it ending or just leaving us

Tired and waiting?

You're chasing the reasons

Revolving in circles of questions

We've all tried to answer for ourselves.

The answer's already inside us,

Just listen

And maybe you'll find an answer

You don't want to hear.

It's only your diversions that keep it away.

Just open your eyes to see.

Finally you'll understand to fill this void,

Empty out entirely what's standing now.
