

BEMY, Christmas in Poland

End of the year and the days are shorter
Last week of hard work and people go back home
I'm all alone in this town

Oh i've been needing a short break from life
A holiday where i'll see something brand new

Quit stressin' we're in december
Time for an adventure
In my heart there's enough free space for two

I'll spend this winter in Poland
Drink a lot of hot wine
Take a walk in the snow
Fall in love with a stranger
Find a mistletoe
Kiss her when her lips are cold

A Christmas with you
I wanna a christmas with you
I wanna a christmas with you

End of the day and we're by the fire
We're gettin closer I put on home alone
We share a blanket for two

I think i'm in love
Santa you got it wrong
Gifts are way overrated
she's the one that i want

Get your head out of the snow boy
Tell her what you feel boy
In your heart there's enough free space for two

I'll spend this winter in Poland
Drink a lot of hot wine
Take a walk in the snow
Fall in love with a stranger
Find a mistletoe
Kiss her when her lips are cold
